

NATIONAL HARVEST PRAYER EVANGELISM PRAYER EVENT FINANCIAL COSTS

In response to your request as to what is needed cost-wise and in general for a prayer event to occur in your district, section or church, the following information is WNOP's standard protocol:

- A district, section or church will be requested to take care of the expenses of the couple or individual leading the prayer event. This would include airfare and hotel. All other WNOP team members and individual participants traveling from abroad would be financially self-supporting and responsible for their own costs.
- This prayer training event requires its participants to purchase a **National Harvest Prayer Evangelism Prayer Walk Training** booklet produce by WNOP team members. The price of the booklets would be \$10 each; which covers design, printing, and distribution expenses. To streamline costs, the booklets could be distributed as one booklet per individual (attendee); one booklet per couple (attendees); and one booklet for a family (attendees) with children/youth under 13.
- Historically, most events have typically included a Friday evening district service at a local host church which is open to everyone. We particularly encourage district leadership and surrounding churches to attend. To view the general format of a Friday evening service, the contents of teaching and projected schedule, please see sample digital booklet on found on link: WNO.ORG > **Prayer Initiatives** > **Plowing Before the Planter** > **Sample agenda or sample booklet** in the pulldown menu.
- During the Friday night service an offering is usually taken. That offering would go to the district, section or church hosting the event. This offering will help to offset any costs incurred by the district, section, or church towards the entire event.
- There are sometimes exceptions made to the general event agenda or schedule. The event may be customized based on the needs and desires of the district. The National Harvest Prayer Evangelism Directors are aware that each district, section, or church culture is different so ministry elements may be included or excluded based on what meets their needs. This will ensure the success of the prayer event. For example: *an altar working session can be included, indoor church prayer walks, or a district theme-focused prayer segment can be included.*
- Recently, we have been transitioning to a new financial structure. This is reflected in the forementioned cost description. Our previous structure or model for offsetting costs when we were financially responsible for the entire event was to solicit financial support, make personal contributions, and to obtain the entire Friday night offering to ensure that all or most of our expenses were covered.

Thank you for enquiring about WNOP NHPE Prayer Walk training. After doing over 200 prayer walks worldwide, and hearing incredible reports and testimonies, we, WNOP staff and team members, are confident that this prayer event will be one of the best ones you have experience!
