

24/7 NOT ON MY WATCH

PRAYER FOCUS

Many men and women dedicate their lives and careers to try to make others well. They have a heart to care for those who are sick, suffering, and in pain. They expose themselves to contagious diseases and suffer emotional stress as they see their patients struggle and sometimes die. They hold the hand of those who are afraid. They share a smile and an encouraging word during times of uncertainty and fear. The weight of their daily tasks can be intense and the physical stress on their own bodies can be substantial. Take time this week to thank God for those who work in the health care industry.

PRAYER POINTS

- For wisdom to how to care for and attend to each patient they come in contact with.
- For compassion and understanding to deal with patients and their families during stressful times.
- For physical strength and stamina to do their job. Many work long shifts on their feet, in constant motion, while dealing with various levels of stressful situations.
- For the ability to make quick, sound decisions when lives are literally on the line.
- For emotional healing and wholeness when someone they have taken care of dies.
- That they would keep their hearts tender to the worth and frailty of human life, no matter what age the person is or what circumstance caused their situation.
- For understanding to know what medical response to give or each person, in each situation.
- For opportunities and wisdom to share the love of God with those who are hurting and experiencing uncertainty.
