

BUSINESS & ECONOMY CITY

PRAYER FOCUS

The strength of the economy has a direct impact on the strength of our communities and families. Small businesses make up 97 percent of all businesses. We as citizens, partnering with our government, must be diligent to maintain a local and global perspective in the area of economics. Money is a tool or resource to be used for good and not for selfish gain in order to provide for the necessities of life and promote economic stability and growth in the nation and the world.
