PRAYER FOCUS

A nation is blessed whose God is the Lord! The national President and team have influence regarding all what happens in their land and beyond. The pressures and challenges they face are immense. Though no one person or team can completely heal a nation, their actions and decisions can make tremendous changes through prayer and the leading of the Lord.

- ◆ That the team would have wisdom to know how to communicate effectively with leaders and dignitaries of other nations, as well as the United Nations and other organizations

- ◆ For wisdom in the selection of the presidential team members
- ◆ That those trying to influence the team with hidden motives would be revealed
